This document is not intended as an offer, solicitation or as a basis for any contract.

This document does not constitute, and may not be used for the purposes of, an offer or solicitation by any person in any jurisdiction (i) in which such offer or solicitation is not authorised or (ii) in which the person making such offer or solicitation is not qualified to do so or (iii) to any person to whom it is unlawful to make such offer or solicitation. The Guernsey Financial Services Commission (the "**Commission**") has authorised the Fund as a "**Class B**" collective investment scheme under the Protection of Investors (Bailiwick of Guernsey) Law,

1987 (as amended) (the “**POI Law**”). It must be distinctly understood that in giving this authorisation the Commission does not vouch for the financial soundness or the correctness of any of the statements made or opinions expressed with regard to the Fund. Income generated by the Fund may fluctuate and no representation or warranty is made as to the level of returns experienced by investors in the Fund. The level of returns received by investors in previous years should not be used as a guide to future returns. **Please refer to the “Risk Factors” set out on page 5 for a discussion of the risks associated with an investment in the Fund.**

The personalised application form in relation to Participating B Shares (the “**B Share Application Form**”) may *not* be used to subscribe for Participating Shares or any other shares outside the Open Offer Period. INVESTMENT SUMMARY

The purpose of the Fund is to provide investors with a means of investing in The Glanmore Property Fund Limited. Accordingly, investors must fully consider the prospectus for the Underlying Fund and will be deemed to have invested subject to its terms. This document must be read in conjunction with that document.

The value of the Fund's investments is reflected in the value of the Shares by way of an accumulation of the whole of the net income attributable to each Share within the Fund. As such no dividends will be declared or paid and income earned will be reflected in the Net Asset Value of the Fund and therefore is reflected in the price of those Shares.

INVESTMENT STRATEGY

The Fund, which is a "Class B" collective investment scheme authorised under the POI Law, will operate as a feeder vehicle into The Glanmore Property Fund Limited, also a "Class B" collective investment scheme authorised under the POI Law, and has been established for this sole purpose. The Underlying Fund is denominated in Sterling as is the Fund.

RISK FACTORS

Attention is drawn to the following specific risk factors:

1. An investment of the type offered by the Fund may not be suitable for all recipients of this Prospectus. An investment in the Fund is designed as a longer term investment and consequently may not be suitable as a short or medium term investment. Prospective investors should seek advice from their investment adviser.
2. The Funds capital structure is designed so that each Share is an accumulation share and as such no dividends will be declared or paid and income earned will be reflected in the price of Shares. Accordingly no dividends are paid, no tax vouchers are issued and there is no annual distribution date. It is therefore not intended that an investment in the Shares in the Fund will produce any regular income for the investor. In addition it should be noted that the tax treatment of the Fund may change.
3. Charges and expenses in connection with the Fund are not made uniformly throughout its life and it is possible that an investor may not receive back the full amount of its investment.
4. The Fund will invest solely in the Underlying Fund and investors should note the risk factors and other conditions set out in the prospectus for the Underlying Fund.
5. Shareholders should be aware that cross-Class of Shares liability issues may potentially arise. Whilst the Company maintains separate accounting records for each Class of Share and segregates the assets of each Class of Shares from those of the other Classes, the fact that each Class of Shares is a class within a single company means that the assets and liabilities attributable to each Class of Shares are part of the assets and liabilities of the Company as a whole. Shareholders should be aware that should the liabilities of any one Class of Shares exceed the assets attributable to that Class of Shares, the assets of the Company, including its solvent Classes of Shares, will be applied against the liabilities of the insolvent Class of Shares, with a consequent reduction in the Net Asset Value of the other Classes of Shares.

SUBSCRIPTION AND REDEMPTION ARRANGEMENTS

Offer

On incorporation, the equivalent of up to a total of 99,900,000 Shares were available for issue. None of the Shares available for issue have been underwritten or guaranteed. Following the Open Offer EGM, the authorised share capital of the Fund increased by the creation of 100,000,000 unclassified shares, which can be issued as either Nominal Shares, Participating B Shares or Participating Shares. Any number of unclassified shares may be issued as Participating B Shares at the Issue Price pursuant to the Open Offer.

Open Offer of Participating B Shares

During the Open Offer Period only, and subject to the conditions described below, Participating B Shares with an aggregate value of up to £24,753,641 are available for issue at the Issue Price pursuant to the Open Offer. Attention is drawn to Part II and Part IV of the Circular which sets out further details of the terms and conditions of the Open Offer (including the mix and match facility) and the terms on which, and conditions to which, any application for Participating B Shares is made and subject respectively.

There are no pre-emption rights in respect of the Participating Shares under the Articles and no statutory pre-emption rights are conferred by the Companies Law. However, the Participating B Shares are being offered through the Open Offer such that nearly all existing Shareholders will be able to participate on a fully pre-emptive basis should they wish to do so.

Under the Open Offer, Qualifying Shareholders are entitled (as a basic entitlement) to subscribe for Participating B Shares at the Issue Price with an aggregate value in proportion to their respective holdings in the Fund as a percentage of the total issued share capital of the Fund as at that time, subject to a "mix and match facility", as further described below and in Part II of the Circular. No initial fee is charged on subscriptions for Participating B Shares during the Open Offer Period. Application for Participating B Shares is through the completion of a personalised Application Form in relation to Participating B Shares for use by Qualifying Shareholders under the Open Offer, which must be completed and returned to Northern trust International Fund Services (Ireland) Limited before the expiry of the Open Offer Period at 5.00 pm on 27 July 2009.

The Open Offer includes a mix and match facility. The mix and match facility enables a Qualifying Shareholder to apply for more than his basic entitlement, and for such applications to be satisfied to the extent that other Qualifying Shareholders choose to take up less than their basic entitlement under the Open Offer.

The Open Offer is conditional on the Underlying Fund Open Offer becoming unconditional in all respects. The Open Offer is also conditional upon the passing of resolution 3 at the Open Offer EGM and that resolution is itself conditional upon the passing of the resolution to be proposed at the extraordinary general meeting of the Underlying Fund by a longstop date of 1 September 2009.

The Placing and Underlying Fund Open Offer are conditional upon, amongst other things:

- (A) the passing of the resolution being proposed at the extraordinary general meeting of the Underlying Fund;
- (B) not less than £95 million (before fees and expenses) being raised pursuant to the Placing and Underlying Fund Open Offer;
- (C) the Directors being satisfied that the proceeds of the Placing and Underlying Fund Open Offer can be applied to cure the breach and ensure the Underlying Fund is in compliance with the Canada Life facility and that Canada Life no longer has any rights in respect of the existing default under the Canada Life facility;
- (D) prior to the application of proceeds to cure such breach, Canada Life has not taken enforcement action and called upon repayment of its facility;
- (E) Admission of the Underlying Fund Participating B Shares on the Irish Stock Exchange becoming effective by no later than 12 August 2009 (or such later time and/or date as the Underlying Fund and Deutsche Bank A.G. (London Branch) may agree); and
- (F) the Placing Agreement otherwise becoming unconditional in all respect and not having been terminated in accordance with its terms prior to Admission.

The Open Offer is not a rights issue and is not renounceable, and the Application Form in relation to Participating B Shares is not a negotiable document and cannot be traded. Participating B Shares not applied for under the Open Offer are not being sold in the market for the benefit of those who do not apply under the Open Offer and Qualifying Shareholders who do not apply to take up their entitlement under the Open Offer have no rights under the Open Offer. In the event that Qualifying Shareholders decide not to subscribe for their full entitlement under the Open Offer, the Fund will not have sufficient proceeds to subscribe for its entitlement under the Underlying Fund Open Offer in full, and the Fund would necessarily suffer a diminution in the value of their investment in the Underlying Fund as a consequence of the issue of Underlying Fund Participating B Shares at a significant discount.

The rights and restrictions attaching to the Participating B Shares are identical to the Participating Shares, save that a holder of Participating B Shares may not redeem, or submit requests to redeem, any of the Participating B Shares for a period of 3 years from the date of issue of such Participating B Shares (the “**Lock-In Period**”).

Following expiry of the Lock-In Period, a holder of Participating B Shares may redeem those shares (in the same manner as a holder of Participating Shares) by submitting requests in accordance with the procedure set out in the paragraph headed “Redemption Arrangements” below. Save as expressly provided under the Articles or where stated in this Prospectus, any redemptions of Participating B Shares following expiry of the Lock-In Period will be on the same terms and conditions as redemptions of Participating Shares.

While the Participating B Shares have the same rights (including voting rights) as Participating Shares, the proceeds from the issue of the Participating B Shares will be used only to subscribe for Underlying Fund Participating B Shares, and shall be accounted for and treated as a separate pool of assets.

To implement this, with effect from the issue of Participating B Shares, the Directors are establishing a Portfolio in accordance with the Articles for the Participating B Shares to which the Fund’s entire investment in Participating B Shares shall be allocated (the “**Participating B Shares Portfolio**”). All the assets, liabilities and commitments relating solely to the Fund’s investment in Underlying Fund Participating B Shares shall be contained in the Participating B Shares Portfolio.

Ongoing Subscription Arrangements

Applications for subscription for Participating Shares at the Offer Price may take place on each Subscription Day (which it is intended should be weekly) in accordance with the following procedures. Shares will be issued with reference to the Offer Price ruling on the relevant Subscription Day. **Participating B Shares are not being made available other than pursuant to the Open Offer and are not available for subscription outside of the Open Offer Period.**

Ongoing Subscription for Participating Shares

The procedure for application is through completion of the application form which is available on request from the Fund's Administrator or on the Fund's website at www.glanmore.com. There is no minimum number of shares that may be the subject of an individual application for subscription and there is no minimum holding of Participating Shares. However, initial applications must be for Participating Shares to a minimum value of £5,000. Fractions of Participating Shares may be issued if appropriate.

The Directors reserve the right to reject any subscription in whole or in part.

Payment for Participating Shares is to be made by cash to the account specified below. Applications to subscribe must be received no later than 5.00 pm (Guernsey time) on the Business Day prior to the relevant Subscription Day.

Subscription proceeds must be paid by cheque or cleared funds to the Administrator to be received on the Business Day preceding the Subscription Day.

Generally, applicants will be sent a contract note detailing the amount invested, the issue price and number of Participating Shares issued within five Business Days of the relevant Subscription Day. Share certificates will not be issued other than pursuant to a specific request.

Redemption Arrangements

The Fund is currently in a postponement regime with regards to redemptions of Shares. Pursuant to the Articles, the Directors have, in December 2008, decided to extend a postponement of redemption of Shares (which has been in effect since July 2008) until the end of June 2009. Following the adoption of new articles of incorporation at the Open Offer EGM, the ability of Directors to postpone redemptions of such Shares until a subsequent Subscription Day has been extended from the current not more than 12 months to up to 4 years after the Expected Subscription Day (as defined below), and the Directors have exercised such power to further extend the postponement regime.

Requests to redeem Shares (including, following the expiry of the Lock-in Period, the Participating B Shares) at the Net Asset Value per Share (which will generally be published by the Administrator shortly after the announcement of the share price from the Underlying Fund) must be received by the Administrator at least one month (or such other notice period as the Directors may from time to time determine) before the relevant Subscription Day for Shares to be redeemed on that Subscription Day. Redemption requests shall be made on the form of redemption notice available from the Administrator on request together with such other completed documentation as the Administrator may require.

Redemptions can be made by facsimile instructions. However, redemption proceeds will not be paid until the receipt by the Administrator of the original executed instructions. Unless a redemption request specifies a particular number of Shares to be redeemed, it will be deemed to apply in respect of the total holding of the relevant Shareholder.

Redemption proceeds will be sent by telegraphic transfer or by cheque at the holder's risk to the address of the holder registered with the Administrator within 5 Business Days of the relevant Subscription Day. Redemptions payments will only be made to the named holder, or in the case of joint holders to the first named holder only and not third parties.

Shares may become subject to compulsory redemption in certain circumstances. Investors' attention is drawn to the section headed "Compulsory Redemption" on page 30.

Valuation

The Net Asset Value will be calculated as at close of business on the first Business Day of each month. Subscription and redemption will take place on the next Subscription Day at the Net Asset Value per Share and thereafter at that Net Asset Value per Share until the next Valuation Date, subject to the Front End Fee on subscription, the current Net Asset Value per Share figure will be available from the Administrator on request at any time shortly after the announcement of the share price from the Underlying Fund, and will be published by the Financial Times on the publication day following determination by the Administrator. The Net Asset Value in respect of each class of Share will be determined in accordance with the Articles and will reflect the value of the Fund's investment in the relevant class of share in Underlying Fund which will be based on the latest available price.

As such, the Net Asset Value per Participating Share will be calculated separately from the Net Asset Value per Participating B Share. Any increase or diminution in the value of the Fund's investments in Underlying Fund Participating B Shares shall be applied solely to the Participating B Shares Portfolio only and all income arising in respect of the assets comprised in the Participating B Shares Portfolio (that is, arising from the Underlying Fund Participating B Shares) shall form part of the Participating B Shares Portfolio.

Costs, expenses and liabilities which are not directly attributable to any class of shares in the Fund shall be attributed to and discharged out of the assets of the Participating B Shares Portfolio and assets outside the Participating B Shares Portfolio in the same ratio as the ratio of the latest Net Asset Value of the Participating B Shares Portfolio bears to the latest Net Asset Value of the other assets of the Fund outside of the Participating B Shares Portfolio unless the Directors, in their discretion, decide that another attribution of a cost, expense or liability is more reasonable and fairer to the holder of Participating Shares and to the holder Participating B Shares, in each case taken as a whole.

The Directors will discharge the costs, expenses and liabilities to which they consider fairly and reasonably to be attributable to the Participating B Shares out of the assets of the Participating B Shares Portfolio only.

The costs, expenses and liabilities attributable to the Participating B Shares Portfolio shall be applied to the relevant Class Account in accordance with the Articles.

In the event of the occurrence of any event which may affect the proportion of the Net Asset Value of the Fund attributable to the Class Account maintained in the books of the Fund for any class of Shares, the Directors may make such adjustment as they deem appropriate to ensure any increase or decrease in the Net Asset Value of the Fund and all liabilities and expenses are attributed to the Class Account maintained for each of the Shares and the Participating B Shares properly and fairly.

Transfers

Instruments of transfer of Shares are available from the Administrator. An instrument of transfer signed by or on behalf of the transferor together with the certificate (if any) for the Shares transferred must be lodged with the Administrator. Transfers of Shares may be restricted and Shares become liable to compulsory redemption where the holding of such Shares may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage to the Fund or its Shareholders as a whole. Investors' attention is drawn to section headed "Compulsory Redemption" page 30.

Suspension of Dealings

The Directors have power under the Articles to suspend valuation of the Shares, and therefore subscriptions and redemptions of Shares if in the opinion of the Directors, it is not reasonably practicable for the Fund to realise its investments or fairly to determine their Net Asset Value or generally if it is desirable to do so in the interest of continuing Shareholders. In addition, the Directors may declare a suspension of the value of the Shares in certain circumstances described under the section headed 'Temporary Suspension of Valuation' on page 32.

The Directors also have power under the Articles to suspend only redemptions of Shares if in the opinion of the Directors:

- (a) it is not reasonably practicable or in the best interests of the Shareholders for the Company to realise or to dispose of the Fund's assets; or

- (b) there is good and sufficient reason to do so having regard to the interests of the continuing Shareholders; or
- (c) the Underlying Fund declares a suspension of redemptions.

Such suspension will be in accordance with the relevant provisions of the Articles.

It is not anticipated that the Directors should have need to use such powers unless market conditions or the level of requests for redemptions received and accepted by the Directors make it desirable in the interests of the general body of Shareholders that they should do so.

Investors' attention is drawn to 'Temporary Suspension of Valuation' on page 32.

Postponement of Dealings in respect of Redemptions

If the directors are of the opinion that it is reasonably unlikely that all Shares that are the subject of all redemption requests received by the Fund and which are due to be satisfied on the same Subscription Day (the "**Relevant Redemption Requests**") will be able to be redeemed out of the realised assets of the Fund on the Subscription Day on which the Shares that are the subject of the Relevant Redemption Requests are (but for a postponement (if any)) due to be redeemed (the "**Expected Subscription Day**") (such ability to redeem being determined after taking account of payments due to creditors of the Fund whether falling before or after the Expected Subscription Day), the redemption of such Shares may be postponed by the Directors until a subsequent Subscription Day being not more than 12 months after the Expected Subscription Day ("**Postponed Redemption Requests**").

If the Directors, in their absolute discretion, determine to redeem any Shares that are the subject of Postponed Redemption Requests during the period of postponement they shall only do so:

- (a) in the order in which the Postponed Redemption Requests were received by the Fund and or its authorised agents; and
- (b) for the purposes of paragraph (a), in the event that the Fund or its authorised agents has received Postponed Redemption Requests from more than one Shareholder simultaneously and the Fund has realised insufficient assets to enable all the relevant Shares concerned to be so redeemed, then such redemptions shall be made pro-rata to the total number of the relevant Shares held by each of the Shareholders concerned.

In the event that a request for redemption in respect of Shares is due to be satisfied at a time when there remain Shares that are the subject of Postponed Redemption Requests that are yet to be redeemed, and the Directors have not postponed the redemption of such Shares in accordance with the above Postponed Redemption Requests, the directors may at their discretion postpone the redemption of such Shares (subject to the notice period for the redemption of such Shares having expired) until a subsequent Subscription Day (being no later than the Subscription Day on which the Shares that are the subject of those Postponed Redemption Requests are redeemed). This is to ensure that redemption requests are satisfied in the order in which they are received by the Fund.

ELIGIBLE INVESTORS AND "US PERSONS"

Each investor must represent and warrant to the Directors that, inter alia, he is able to acquire and hold Shares without violating applicable laws.

The Manager will not knowingly offer or sell Shares to any investor to whom such offer or sale would be unlawful, might result in the Fund incurring any liability to taxation or suffering any other pecuniary disadvantage which the Fund might not otherwise incur or suffer or would result in the Fund being required to register under the United States Investment Company Act of 1940, as amended. Shares may not be held by any person in breach of the law or requirements of any country or governmental authority including, without limitation, exchange control regulations.

The Fund will not be registered under the 1940 Act. Based on interpretations of the 1940 Act by the staff of the United States Securities and Exchange Commission relating to foreign investment entities, if the Fund has more than 100 beneficial owners of its Shares who are US Persons, it may become subject to the 1940 Act. The Directors will not knowingly permit the number of Shareholders in the Fund who are US Persons to exceed 75.

MEANING OF “US PERSON”

For the purpose of this document, but subject to such applicable law and to such changes as may be notified by the Manager to applicants for Shares and transferees, a US Person shall have the same meaning as in Regulation S, as amended from time to time, of the United States Securities Act of 1933, as amended. Regulation S currently defines a “US Person” as: (a) any natural person who is a resident of the United States; (b) any partnership or corporation organised or incorporated under the laws of the United States; (c) any estate of which any executor or administrator is a US Person as defined in sub-paragraphs (a) and (b) herein; (d) any trust of which any trustee is a US Person as defined in sub-paragraphs (a) and (b) herein; (e) any agency or branch of a foreign entity located in the United States; (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or similar fiduciary for the benefit or account of a US Person; (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated or, if an individual, resident in the United States; or (h) any partnership or corporation (i) if organised or incorporated under the laws of any foreign jurisdiction and (ii) formed by a US Person principally for the purpose of investing in securities not registered under the 1933 Act, unless it is organised or incorporated, and owned, by accredited investors (as defined in Rule 501(a) under the 1933 Act) who are not natural persons, estates or trusts.

“US Person” does not include: (a) a discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-US Person by a dealer or other professional fiduciary organised, incorporated or, if an individual, resident in the United States; (b) any estate of which any professional fiduciary acting as executor or administrator is a US Person if (i) an executor or administrator of the estate who is not a US Person has sole or shared investment discretion with respect to the assets of the estate and (ii) the estate is governed by foreign law; (c) any trust of which any professional fiduciary acting as trustee is a US Person if a trustee who is not a US Person has sole or shared investment discretion with respect to the trust assets, and no beneficiary of the trust (and no settlor if the trust is revocable) is a US Person; (d) an employee benefit plan established and administered in accordance with the law of a country other than the United States and customary practices and documentation of such country; or (e) any agency or branch of a US Person located outside the United States if (i) the agency or branch operates for valid business reasons and (ii) the agency or branch is engaged in the business of insurance or banking and is subject to substantive insurance or banking regulation, respectively, in the jurisdiction where located.

BORROWING POLICY

It is not the Board’s intention to exercise any powers of borrowing for the account of the Fund other than to meet short term liquidity requirements. Borrowing must be on a temporary basis and not persistent. In any event, any borrowing for the account of the Fund shall not exceed 10% of the net asset value of the Fund.

DISTRIBUTION POLICY

As each Share is an accumulation share for which the whole of the net income attributable to each Share is accumulated within the Fund and as such no dividends will be declared or paid and income earned will be reflected in the Net Asset Value of the Fund and therefore is reflected in the price of those Shares. Accordingly, no dividends are paid, no tax vouchers are issued and there is no annual income distribution date.

As explained below under “Taxation – United Kingdom – Shareholders in the Fund”, under current UK tax law it is necessary for the Fund to distribute by way of dividend not less than a specified proportion of its income for each of its accounting periods in order for the Fund to qualify for certification by the UK tax authorities as a “distributing fund” and thereby enable gains realised by UK resident or ordinarily resident Shareholders on a disposal of Participating B Shares to be taxed, in general, as capital rather than as income. Therefore, on the basis that each Share is an accumulation share (as explained above), so long as the “distributing funds” taxation regime remains in force, the Directors intend that the Fund will conduct its affairs in such a manner so that the Fund is not capable of, nor will seek, certification as a “distributing fund” for any of its accounting periods.

As also explained below under the above-mentioned part of the “Taxation” section, certain proposals currently before the United Kingdom Parliament will, if enacted, result in the replacement of the “distributing funds” taxation regime with a new “reporting funds” taxation regime. The significance of this prospective change in the context of the Fund’s distribution policy is that under the proposed new “reporting funds” regime, it will no longer be necessary for the Fund to distribute any particular level of its income to Shareholders in order for the Fund to qualify as a “reporting fund”. Assuming that these proposals become law, the Directors do not, however, intend that the Fund will elect, at the appropriate time, to enter the “reporting funds” regime.

CONFLICTS OF INTEREST

Deutsche Bank is a global financial institution, of which the Manager is a part. Deutsche Bank, together with its affiliates, officers, employees and agents (for purposes of this paragraph, collectively, “Deutsche Bank”), is engaged in wholesale and retail banking, lending, equity investing, financial and merger and acquisition advisory, underwriting, investment management, brokerage, trustee, custodial, and similar activities on a world-wide basis. In addition, groups within Deutsche Bank may manage, during the life of the Fund, property portfolios with objectives similar to or overlapping those of the Fund. In the course of engaging in these activities, Deutsche Bank may be a competitor of the Fund or provide financing or other services to other competitors of the Fund. Deutsche Bank will be under no obligation to refer any opportunities to the Fund, or refrain from investing in, or providing advice or services to others with respect to, these opportunities.

Deutsche Bank has relationships with a significant number of developers, institutions and corporations and provides and will in the future provide advisory services to its clients, which may include portfolio companies and their affiliates. In the course of advising with respect to a particular transaction on behalf of the Fund, the Manager may consider those relationships and may decline to recommend an investment in view of such relationships and there may be occasions when (notwithstanding the separation of areas of confidentiality and the implementation of other accepted means for managing potential conflicts) as a result of a conflict of interest the Manager has to withdraw from acting on a particular transaction on behalf of the Fund. In providing services to its clients, Deutsche Bank may recommend activities that would compete with or otherwise adversely affect the Fund. In connection with the foregoing activities, Deutsche Bank may from time to time come into possession of information that limits its ability to make an investment, and the Fund’s investment ability may be constrained as a consequence of the Manager’s inability to use such information for advisory purposes. Deutsche Bank may also receive information that could preclude the Manager from taking actions that would be in the best interests of the Fund.

In addition, Deutsche Bank has in the past sponsored or advised, and in the future may sponsor or advise, other funds or pooled investment vehicles or separate accounts that may acquire interests in, provide financing to or otherwise deal with real estate-related assets that may be suitable investments for the Fund. Deutsche Bank may also underwrite or place real estate or real estate-related assets that may be suitable investments for the Fund. Such actions may compete, perhaps significantly, with those of the Fund. Moreover, in certain circumstances, Deutsche Bank may be selling an investment in circumstances in which the Fund is acquiring, or retaining an investment. Such activities by Deutsche Bank may materially and adversely affect the value of the Fund’s investments. Accordingly, no assurance can be given that potentially suitable real estate investments of which Deutsche Bank may become aware will be offered to the Fund, nor is there any assurance that suitable assets will not be acquired by other Deutsche Bank clients. The foregoing is not an exhaustive list of potential conflicts associated with the other activities of Deutsche Bank, and there is no assurance that investments made by Deutsche Bank or its clients will not adversely affect investments of the Fund.

The Directors, the Manager, the Property Adviser, the Custodian and the Administrator or companies with which they are associated may from time to time act as manager, property adviser, custodian or administrator in relation to, or be otherwise involved in, other funds established by parties other than the Fund which have similar objectives to those of the Fund. It is therefore possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly. In addition any of the foregoing may deal as principal or agent with the Fund, provided that such dealings are carried out as if effected on normal commercial terms

negotiated on an arm's length basis. Notwithstanding this, the Manager will not initiate the acquisition or sale of investment properties between the Fund and any other fund that it manages. The Manager or any of its affiliates or any person connected with the Manager may invest in, directly or indirectly, or manage or advise other property funds or accounts which invest in assets which may also be purchased or sold by the Fund. Neither the Manager nor any of its affiliates nor any person connected with it is under any obligation to offer investment opportunities of which any of them becomes aware to the Fund or to account to the Fund in respect of (or share with the Fund or inform the Fund of) any such transaction or any benefit received by any of them from any such transaction, but will allocate such opportunities on an equitable basis between the Fund and other clients. In determining the Net Asset Value, the Directors may rely on valuations provided or attributed to any asset or liability by the Manager. All valuations undertaken by the Valuers in respect of investment properties will be made in accordance with the Royal Institution of Chartered Surveyors Valuation and Appraisal Standards as amended from time to time.

DATA PROTECTION AND PRIVACY

The Data Protection (Bailiwick of Guernsey) Law 2001

Pursuant to The Data Protection (Bailiwick of Guernsey) Law 2001, (the "DP Law") the Fund and/or its Administrator may hold personal data (as defined in the DP Law) relating to past and present shareholders.

Such personal data held is used by the Administrator to maintain the Fund's register of shareholders and mailing lists and this may include sharing such data with third parties in one or more of the countries mentioned below when (a) effecting the payment of dividends and redemption proceeds to shareholders and (b) filing returns of shareholders and their respective transactions in shares with statutory bodies and regulatory authorities. Personal data may be retained on record for a period exceeding six years after it is no longer used.

The countries referred to above include, but need not be limited to, those in the European Economic Area or the European Union and any of their respective dependent territories overseas, Argentina, Australia, Brazil, Canada, Hong Kong, Japan, New Zealand, Singapore, South Africa, Switzerland and the United States of America.

By becoming registered as a shareholder in the Fund a person becomes a data subject (as defined in the DP Law) and is deemed to have consented to the processing by the Fund or its Administrator of any personal data relating to them in the manner described above.

Privacy

Any individual or entity in jurisdictions with applicable banking secrecy or other privacy laws may be required to waive the benefits of such laws in order to invest in the Fund. The Fund may not be bound by such laws and may require investors to provide to the Fund such additional non-public information that the Fund may request from time to time. The Fund may be forced to disclose such non-public information, personal or otherwise, to the Administrator and/or the Guernsey Financial Services Commission.

INDEMNIFICATION

The Manager, any person to whom the Manager has delegated any of its duties, the Custodian, the Administrator and their respective employees, officers and agents shall be indemnified and held harmless out of the assets of the Fund against all claims and demands, including costs and expenses arising from or incidental to such claims and demands, incurred by an indemnified party by reason of any contract entered into or in any way in discharge of its duties and obligations to the Fund, except as may arise from an indemnified party's fraud, negligence or wilful act or default.

FEES

Front End Fee

All applicants for Shares in the Fund will be required to pay a maximum Front End Fee of 5% of the Net Asset Value of the number of Shares subscribed (except that no fees are payable in respect of a subscription of Participating B Shares pursuant to the Open Offer). On the issue of Shares, the Manager shall be entitled to retain, for its absolute use and benefit, a sum equal to 4.5% of the Net Asset Value of the Shares issued (or such higher percentage as may from time to time be agreed between the Manager and the Fund). Any sum received as a Front End Fee in excess of this amount shall be paid for the account of the Fund.

The Manager may rebate in whole or in part its proportion of the Front End Fee to agents (including any placement agent) as it thinks fit.

The Front End Fee will be deducted from the Shareholder's gross investment in the Fund and this amount will not be included in any valuation or individual performance reports provided to the Shareholder.

Investors who invest in the Underlying Fund via the Fund will only be charged the Front End Fee at the Fund level. The Fund will not be charged a front end fee for investing in the Underlying Fund.

Fees Payable to the Manager

The Manager shall be entitled to a Front End Fee, subject to the terms described above.

Other than the Front End Fee, the Manager will not receive any other fee in respect of the Fund in addition to the fee it receives in respect of its services provided to the Underlying Fund.

The Fund shall reimburse to the Manager out of the scheme property of the Fund certain specified expenses, costs, charges and fees incurred or to be incurred by the Manager including all expenses, costs, charges and fees in the relevant categories incurred or to be incurred by any person to whom the Manager shall have delegated any of its powers and duties in accordance with the Management Agreement and who is entitled to be reimbursed in respect of such expenses, costs, charges and fees by the Manager.

The Manager may deal in Shares of the Fund without accounting for its profits (if any).

Fees Payable to the Administrator

The Administrator will not receive any fee in respect of administrative services provided to the Fund, which are in addition to the fee it is entitled to receive from the Underlying Fund.

A fee of £3000 is payable to the Administrator (in its capacity as Receiving Agent) in connection with the Placing and Open Offer.

Fees Payable to the Directors

The Fund may pay its Directors' reasonable expenses incurred in the course of their duties. There is currently no Directors' fee payable by the Fund to its Directors.

Fees Payable to the Custodian

The Custodian is entitled to receive from the Fund such fee as may be agreed between the Custodian and the Manager from time to time (the "Custodian Fee").

In addition to the Custodian Fee payable to the Custodian as detailed above, the Fund shall pay to the Custodian out of the scheme property of the Fund: (a) if and so agreed by the Fund, the fees and expenses of any sub-custodian to whom the custody of any of the uninvested monies from whatever source and in whatever currency collected or received from time to time by the Custodian or any of its sub-custodians for the account of the Fund is entrusted; and (b) the fees and expenses of any legal adviser, accountant, broker or other agent employed by the Custodian appointed in accordance with the Custodian Agreement, subject to the prior approval of the Fund.

EXPENSES

The Manager, the Directors, the Custodian and the Administrator are also entitled to be reimbursed their out of pocket expenses properly incurred in the performance of their respective duties.

The Fund will in addition meet all its own expenses including the costs and expenses of ongoing promotion, advisers, consultants and other agents engaged on its behalf, commissions, legal expenses, auditors' fees and the costs of distribution of reports and accounts and similar documentation to Shareholders.

TAXATION

The following is a summary of the tax treatment which, it is anticipated, will apply to the Fund. The summary is based on existing law and practice which is subject to changes to the relevant legislation, fiscal rules and practice and their interpretation and application. Except where otherwise stated, this summary is based on professional advice received by the Directors.

The summary does not constitute legal or tax advice to particular investors. Prospective investors should consult their professional advisers to the possible tax consequences of buying, selling, holding or redeeming Shares under the laws of their country of citizenship, residence or domicile. Such persons are also advised to inform themselves on any exchange control regulations applicable under the laws of any relevant jurisdiction in relation to the acquisition, ownership or disposal of Shares.

GUERNSEY

The Fund

The Fund has received confirmation from the Administrator of Income Tax that under current law and practice in Guernsey, the Fund will not be liable to income tax in Guernsey save in respect of income arising in Guernsey (other than bank deposit interest). However, the Fund will be liable to pay an annual exempt company fee to the Income Tax Authority in Guernsey which is currently £600.

Guernsey does not levy taxes upon capital inheritances, capital gains (with the exception of a dwelling profits tax), gifts, sales or turnover, nor are there any estate duties save for an ad valorem fee for the grant of probate. No stamp duty is chargeable in Guernsey on the issue, transfer or redemption of Shares (other than on incorporation or subsequent increases in the level of authorised share capital where duty at the rate of 0.5% of the Nominal Share capital is payable by the Fund subject to a maximum of £5,000).

Shareholders in the Fund

Shareholders resident outside Guernsey and who do not carry on business in Guernsey through a permanent establishment situated in Guernsey are not subject to any tax in Guernsey in respect of any Shares owned by them.

Shareholders resident in Guernsey for the purposes of liability to Guernsey income tax will receive their dividends gross.

Guernsey has introduced measures that are equivalent to the EU Saving Tax Directive. However, paying agents located in Guernsey are not required to operate the measures on payments made by Class B collective investment schemes.

UNITED KINGDOM

The Fund

The Fund will be liable to basic rate income tax on its net rental income. Net rental income is broadly rents received net of expenses incurred in producing those rents. The Fund has obtained permission under the non-resident landlord scheme for basic rate income tax not to be deducted from the rent thus maximising cash flow. The Fund is not expected to be subject to UK corporation tax on its chargeable gains as it is not resident in the UK.

Shareholders in the Fund

General

For UK tax purposes, the Fund will be treated as a company, and not as a fiscally transparent entity. However, as more fully explained below, this statement will effectively be qualified as regards the Fund's income upon the commencement of the proposed UK "reporting funds" regime and any election by the Fund to enter that regime.

Dividends on Participating B Shares

Shareholders who are resident in the UK for tax purposes will, subject to their individual circumstances, be liable to UK income tax or, as the case may be, UK corporation tax on dividends paid to them by the Fund. Under the provisions of the Finance Bill currently before the UK Parliament, dividends paid by the Fund on or after 1 July 2009 to certain Shareholders within the charge to UK corporation tax may, in certain circumstances, be exempt from tax.

As explained below, if the proposed UK "reporting funds" regime comes into force and the Directors elect for the Fund to enter into that regime, a UK tax resident Shareholder will, thereafter, be liable to UK income taxation on that Shareholder's pro rata share of the income earned by the Fund in each of its accounting periods, so that the Shareholder's liability to taxation in respect of the income of the Fund will no longer be restricted to the amount of that income which is distributed by the Fund to the Shareholder. As explained above under "Distribution Policy", the Directors do not, however, intend to make an election for the Fund to enter into the "reporting funds" regime.

Disposals of Participating B Shares

Subject to their individual circumstances, Shareholders who are resident or ordinarily resident in the UK for taxation purposes will potentially be liable to UK taxation, as further explained below, on any gains which accrue to them on a redemption, sale or other disposition of their Participating B Shares which constitutes a "disposal" for UK taxation purposes.

In consequence of its open-ended structure, the Fund constitutes an "offshore fund" for UK tax purposes and, in turn, the Participating B Shares Portfolio is deemed to constitute a separate notional "offshore fund". This means that in order for any gain realised on a disposal of Participating B Shares to be taxable, in the hands of a Shareholder resident or ordinarily resident in the UK for tax purposes, as a capital gain (rather than as income), the Fund must itself satisfy a prescribed condition, as described below. Should that prescribed condition not be satisfied, any such gain will, in general, be taxable in the hands of the Shareholder as income (rather than as a capital gain). In that event, the gain would not be eligible for shelter by any relief or exemption in UK tax law which applies solely to capital gains, such as the annual allowance of tax-free capital gains available to an individual.

Under current UK tax law, the above-mentioned prescribed condition is that the Fund is certified by HMRC as a "distributing fund" in respect of the Participating B Shares Portfolio throughout the period from a Shareholder's acquisition of Participating B Shares to the date of disposal of those Participating B Shares. The main requirement which the Fund has to fulfil in order to qualify as a "distributing fund" for any accounting period is that the Fund distributes to Shareholders, by way of dividend, a sum not less than 85% of whichever is the greater of (a) the Fund's accounts income for that period attributable to the Participating B Shares Portfolio or (b) the amount that would be the taxable income of the Fund for that period attributable to the Participating B Shares Portfolio if, hypothetically, the Fund were resident in the United Kingdom for tax purposes.

Under proposals currently before the UK Parliament, the above-mentioned prescribed condition will change to a requirement that the Fund qualifies as a "reporting fund" in respect of the Participating B Shares Portfolio throughout the period of a Shareholder's investment in Participating B Shares, as described in the preceding paragraph, except for any part of that period in which the Fund has qualified as a "distributing fund" in respect of the Participating B Shares Portfolio under current legislation. The Fund will not need to satisfy any income distribution requirement in respect of the Participating B Shares Portfolio in order to qualify as a "reporting fund". Instead, the Fund will, broadly, have to submit an election to HMRC to enter into the "reporting funds" regime in relation to the Participating B Shares Portfolio and will thereafter have to provide each Shareholder, for each of the Fund's

accounting periods, with a formal notification of the Shareholder's pro rata share of the "reportable income" (as defined by regulations) earned by the Fund within the accounting period concerned and attributable to the Participating B Shares Portfolio. A UK tax resident Shareholder will then be liable to UK income tax or (as the case may be) corporation tax on the excess (if any) of the amount of such pro rata share "reportable income" notified to the Shareholder by the Fund in respect of the accounting period concerned over the dividends or other income distributions (if any) made to the Shareholder by the Fund in respect of that accounting period and his or her holding of Participating B Shares.

The Directors intend to continue to conduct the Fund's affairs in such manner so that the Fund is not capable of, nor will seek, certification as a "distributing fund" in respect of the Participating B Shares Portfolio for any accounting period in which the current "distributing funds" regime remains in force. HMRC have indicated that (subject to Parliamentary approval) the "reporting funds" regime will replace the "distributing funds" regime for, in general, the first accounting period of an offshore fund commencing on or after 1 December 2009. Assuming that the proposals presently before the UK Parliament become law, the Directors do not, however, intend that the Fund will elect, at the appropriate time, to enter into the "reporting funds" regime in respect of the Participating B Shares Portfolio.

As explained above, the consequence of not making that election will mean that any gain realised on a disposal, or deemed disposal, of Participating B Shares will, in general, be taxable in the hands of a Shareholder as income (rather than as a capital or chargeable gain). This means that in the case of an individual Shareholder resident or ordinarily resident in the UK for tax purposes who is liable to income tax at the basic rate, he or she will be subject to tax on the gain at the rate of 20 per cent. and in the case of such a Shareholder who is liable to income tax at the higher rate, he or she will be subject to tax on the gain at the rate of 40 per cent. to the extent that the gain, when treated as the Shareholder's top slice of incomes, falls above the threshold for higher rate income tax (in either case, subject to his or her own particular circumstances).

Shareholders should note that, in the April 2009 Budget, the UK Government announced proposals to introduce, with effect from 6 April 2010, an additional higher income tax rate of 50 per cent. for non-savings and savings income in excess of £150,000. If these proposals (which are now reflected in the Finance Bill currently before the United Kingdom Parliament) are given legislative effect, and a Shareholder is liable to income tax at that additional higher rate, he or she will be subject to tax on the gain at 50 per cent. to the extent that the gain, when treated as the Shareholder's top slice of income, falls above the £150,000 threshold (subject to his or her own particular circumstances).

In the case of Shareholders within the charge to UK corporation tax, they will (subject to their own particular circumstances) be liable to such corporation tax at 28 per cent. on any gain arising to them upon a disposal, or deemed disposal, of Participating B Shares unless the small companies' corporation tax rate of 21 per cent. applies.

Certain Other Provisions of UK Tax Legislation

Section 13 Taxation of Chargeable Gains Act 1992 – Deemed Gains

Section 13 of the UK Taxation of Chargeable Gains Act 1992 may apply to Shareholders who are resident or ordinarily resident in the United Kingdom for tax purposes and whose proportionate interest in the Fund as "participants" for UK tax purposes, together with that of any persons "connected" with them for UK tax purposes, is greater than 10% if (and only if) the Fund would be a "close company" for UK tax purposes were it (hypothetically) resident in the United Kingdom for those purposes. For so long as the Fund remained a "close company", such a Shareholder could (depending on individual circumstances) be liable to UK capital gains taxation on the Shareholder's pro rata share of any capital gain accruing to the Fund.

Persons "connected" with a Shareholder for UK tax purposes include, where the Shareholder is a company, any other company that is under the control of the Shareholder, or that has control of the Shareholder, or which is under common control with the Shareholder. The rules which determine whether the Fund would (if, hypothetically, it were UK tax resident) be a "close company" are complex but are concerned, very broadly, with the degree of concentration of ownership of the Fund's share capital from time to time.

“Controlled Foreign Companies” Provisions – Deemed Income of Corporates

If the Fund were at any time to be controlled, for UK tax purposes, by persons (of any type) resident in the United Kingdom for tax purposes, the “controlled foreign companies” provisions in Chapter IV of Part XVII of the Taxes Act could apply to UK resident corporate Shareholders. Under these provisions, part of any “chargeable profits” accruing to the Fund may be attributed to such a Shareholder and may in certain circumstances be chargeable to UK corporation tax in the hands of the Shareholder. However, this will apply only if the apportionment to the Shareholder, when aggregated with the apportionment to any person(s) “associated” with the Shareholder, is at least 25% of the chargeable profits of the Fund. “Associated” means here essentially the same as “connected” means for UK tax purposes, as discussed under “Section 13 Taxation of Chargeable Gains Act 1992” above. A company’s “chargeable profits” do not include any of its chargeable gains.

Chapter 2 of Part 13 of the Income Tax Act 2007 – Deemed Income of Individuals

The attention of Shareholders who are individuals ordinarily resident in the United Kingdom for tax purposes is drawn to the provisions set out in Chapter 3 of Part 13 of the UK Income Tax Act 2007, which may render those individuals liable to UK income tax in respect of undistributed income (but not capital gains) of the Fund.

The provisions should not apply where it can be demonstrated that transactions between Shareholders and the Fund were not undertaken in order to avoid UK taxation or were undertaken for bona fide commercial reasons. For this reason, HMRC historically appears not to have sought to apply the provisions in the context of investment funds. However, Shareholders should appreciate that such an approach by HMRC cannot be guaranteed going forward. It is recommended that Shareholders in any doubt as to whether the provisions apply, or could apply, to them should consult their own independent professional tax advisers.

NON-GUERNSEY AND NON-UNITED KINGDOM TAX RESIDENT SHAREHOLDERS

Investors who are not resident (in the case of corporate investors) or resident or ordinarily resident (in the case of individual investors) in the UK or Guernsey and who are not carrying on a trade, profession or vocation in the UK or Guernsey through a branch, agency or permanent establishment to which their Shares are attributable, are not expected to be liable to UK taxation on gains arising from the sale or redemption or other disposal of their Shares (of either class), although they may be subject to foreign taxation in their own jurisdiction.

Abu Dhabi – Individual Investors

For tax purposes in Abu Dhabi, one of the Emirates of the UAE, the Fund will be treated as a company, and not as a fiscally transparent entity.

There is currently no personal taxation on income or capital gains in Abu Dhabi. Consequently, any income or capital gains received by individuals resident in Abu Dhabi from their participation in the Fund should not be subject to tax in the United Arab Emirates (or Abu Dhabi).

Bahrain – Individual Investors

For tax purposes, the Fund will be treated as a company, and not as a fiscally transparent entity in Bahrain.

There is no personal taxation on income or capital gains in Bahrain. Consequently, any income or capital gains received by individuals resident in Bahrain from their participation in the Fund should not be subject to tax in Bahrain.

British Virgin Islands – Individual Investors

For tax purposes, the Fund will be treated as a company, and not as a fiscally transparent entity in the British Virgin Islands.

There is no personal taxation in the British Virgin Islands on income or capital gains received from investments in jurisdictions outside the British Virgin Islands. Consequently, any income or capital gains received by individuals resident in the British Virgin Islands from their participation in the Fund should not be subject to tax in the British Virgin Islands.

Cayman Islands – Corporate Investors

For tax purposes, the Fund will be treated as a company, and not as a fiscally transparent entity in the Cayman Islands.

There is no corporate taxation in the Cayman Islands on income or capital gains received from investments in jurisdictions outside the Cayman Islands. Consequently, any income or capital gains received by corporate investors resident in the Cayman Islands from their participation in the Fund should not be subject to tax in the Cayman Islands.

France – Individual Investors

For French tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Individuals resident in France are subject to income tax on dividends received from companies which are resident in other jurisdictions at their marginal rate. Capital gains realised by individuals resident in France on the disposal of shareholdings in companies resident in other jurisdictions are also chargeable to income tax in France but typically at a flat rate. Consequently, any income or capital gains received by individuals resident in France from their participation in the Fund should be chargeable to income tax in France.

In certain circumstances, for example if shares in the Fund are bought back by the company or are sold shortly before a liquidation of the company, amounts received by French investors will be taxed at their marginal rates, rather than at the flat rate.

It should be noted that any French resident individual holding more than 10% of the shares in the Fund will be taxable on any income received by the Fund, even if the income is not distributed to him. The French investor will be taxed in the same way as if he had received a dividend from the Fund.

Hong Kong – Individual Investors

For Hong Kong tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Dividends received from the Fund by individual investors, will not be regarded as taxable income for Hong Kong tax purposes.

Hong Kong does not tax capital gains. However, profits tax may be charged on the profits of speculative transactions if they can be shown to be an adventure in the nature of trade. Gains realized on the disposal of shares in the Fund will not be taxable in Hong Kong on individual investors unless it can be demonstrated that the transaction was in the nature of a Hong Kong source trade.

Hong Kong – Corporate Investors

For Hong Kong tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Under Hong Kong domestic law, dividends received from the Fund by Hong Kong corporate investors will not be regarded as taxable income for Hong Kong tax purposes.

Hong Kong does not tax capital gains. Accordingly, gains realized on the disposal of shares in the Fund will not be taxable in Hong Kong provided the gain is capital in nature. If the investment is not capital in nature, there is a potential profits tax exposure. However, this only relates to gains that are Hong Kong sourced, and therefore any gains in relation to an investment in the Fund should not be taxable in Hong Kong.

Ireland – Individual Investors

Under general principles, individuals who are tax resident, or ordinarily tax resident in Ireland are subject to income tax at a rate of up to 41% on dividend income. Levies of up to 5.5% can also apply.

Consequently, any income distributions received by Irish tax resident individuals may be chargeable to tax at a rate of up to 46.5% in Ireland. Capital gains arising on the disposal of shares by an Irish tax resident individual are taxable at a rate of 20%.

However the Fund is likely to constitute an 'offshore fund' for Irish tax purposes and therefore different rates of tax may apply.

If an offshore fund is located in an EU member state or a jurisdiction with which Ireland has a Double Tax Treaty, tax on income received by an Irish investor will be payable at a rate of between 20% and 23%. Levies may also be payable. Capital gains realised by individuals resident in Ireland on the disposal of shares in such an offshore fund may be taxed at a rate of 23%.

However, since Guernsey is not an EU member state and does not have a Double Taxation Agreement with Ireland, the rates of tax for Irish investors in the Fund will be significantly higher.

Income will therefore be taxable at the normal rate of 41% plus levies. Gains arising on disposals of Shares in the Fund will be taxable at a rate of 40% if the Fund is certified as a distributing fund by the Irish tax authorities. If the Fund is not certified as distributing by the Irish tax authorities, gains arising on disposals of shareholdings will be taxed as income at the normal rate of 41% plus levies.

Japan – Individual Investors

For Japanese tax purposes, the entity classification of the Fund is determined on the basis of the equivalent Japanese entity that most closely resembles the Guernsey Limited Company. On the assumption that the Fund is a separate legal person that has been established for the purpose of carrying on a business and registered with an appropriate authority, the company is likely to be treated as a company, and not as a fiscally transparent entity in Japan. As such, the general comments below are made based on the Fund being treated as a company for Japanese tax purposes.

Shareholders who are permanent residents in Japan for taxation purposes will be subject to income tax on income distributions received from the Fund. The only deductible expense in respect of this income is interest paid on funds borrowed to acquire the Shares.

Any gain arising on the disposal of Shares in the Fund will be subject to tax at a standard rate regardless of the shareholder's marginal rate of tax.

In certain circumstances, a gain arising on the buy back of Shares by the Fund may be treated as an income distribution, rather than a capital gain.

If the Fund is more than 50% owned directly or indirectly by Japanese shareholders, any Japanese shareholders that directly or indirectly hold 5% or more of the Shares in the Fund will need to treat this company as a tax haven subsidiary for Japanese tax purposes and may be subject to taxation on their due portion of the income arising to the Fund regardless of the receipt of distributions.

Liechtenstein – Individual Investors

For tax purposes, the Fund will be treated as a company, and not as a fiscally transparent entity in Liechtenstein.

Individuals resident in Liechtenstein are not subject to tax on dividends provided that net wealth tax has been paid in respect of the underlying investment. Therefore, any income distributions received as a result of an individual's investment in the Fund should not be taxable in Liechtenstein if net wealth tax has been paid in respect of the shareholding.

Capital gains realised by individuals resident in Liechtenstein are subject to income tax. Consequently, any capital gains received by individuals resident in Liechtenstein from their participation in the Fund should be subject to income tax in Liechtenstein.

Luxembourg – Individual Investors

For Luxembourg tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Individual investors tax resident in Luxembourg should be subject to income tax on income distributions received as a result of their shareholding in the Fund. The half exemption of dividends will not apply because there is no Double Taxation Agreement in place between Luxembourg and Guernsey.

Capital gains realised by individuals tax resident in Luxembourg in respect of their shareholding in the Fund will be subject to income tax. Short terms gains arising on a disposal of shares held for less than 6 months will be fully taxable and therefore chargeable to income tax at the individual's marginal rate of tax. Gains arising on a disposal of shares directly or indirectly held for more than 6 months should be exempt from tax unless the individual held more than 10% of the shares in the company, in which case, the gain should be chargeable to income tax at half of the individual's marginal rate.

Luxembourg – Corporate Investors

For Luxembourg tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Fully taxable Corporate investors resident in Luxembourg will be taxable on income distributions and capital gains realised in respect of their shareholding in the Fund.

The Luxembourg participation exemption will not apply on income distributions and capital gains realised in respect of shareholdings in the Fund due to the tax exempt status of the Fund in Guernsey. The half exemption of dividends will also not apply because there is no Double Taxation Agreement in place between Luxembourg and Guernsey.

Malaysia – Individual Investors

For Malaysian tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Individuals resident in Malaysia are not subject to income tax on dividends received from companies which are resident in other jurisdictions. Therefore, investors resident in Malaysia should not be subject to income tax on income distributions received as a result of their shareholding in the Fund.

Capital gains realised by individuals resident in Malaysia are chargeable to tax if they are derived from the disposal of real property (land situated in Malaysia, or any interest, option, or other right over such land) or shares in a real property company. Therefore, on the basis that the Fund will not invest in any property situated in Malaysia, capital gains realised by individuals resident in Malaysia on the disposal of shareholdings in the Fund should not be chargeable to tax in Malaysia unless the individuals resident in Malaysia are involved in the business of trading of investments.

Malaysia – Corporate Investors

For Malaysian tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Companies resident in Malaysia (save for those carrying on a business of air or sea transport, banking or insurance which are taxed on a worldwide scope) are not subject to tax on dividends received from companies which are resident in other jurisdictions. Therefore, companies resident in Malaysia should not be subject to tax on income distributions received as a result of their shareholding in the Fund. In addition, foreign dividends received may be credited into a tax exempt income account from which tax exempt dividends may be paid to shareholders.

Capital gains realised by companies resident in Malaysia are chargeable to tax if they are derived from the disposal of real property (land situated in Malaysia, or any interest, option, or other right over such land) or shares in a real property company. Therefore, on the basis that the Fund will not invest in any property situated in Malaysia, capital gains realised by companies resident in Malaysia on the disposal of shareholdings in the Fund should not be chargeable to tax in Malaysia, provided that the companies resident in Malaysia are not involved in the business of trading of investments.

Saudi Arabia – Corporate Investors

Companies resident in Saudi Arabia are taxed depending upon the nationality of their shareholders. Companies should be subject to “Zakat” on the share of the company held by shareholders who are nationals of states that are members of the Gulf Cooperation Council, whilst the company should be subject to income tax on the share of the company held by shareholders not resident in states that are members of the Gulf Cooperation Council.

Both income and capital distributions received by companies resident in Saudi Arabia as a result of their participation in the Fund should be subject to Zakat or income tax as determined by the nationality of the shareholders of the company.

Singapore – Individual Investors

For tax purposes in Singapore, the Fund will be treated as a company, and not as a fiscally transparent entity.

Individuals resident in Singapore are not subject to income tax on dividends received or deemed to be received in Singapore from non-Singapore resident companies unless the dividend income is received by the individual through a partnership in Singapore. If this is the case, the dividend income should be exempt from tax in Singapore provided that; i) the dividend (or the underlying profits out of which the dividend was paid) is subject to income tax under the law of the jurisdiction from which it is received; ii) at the time the dividend is received in Singapore, the highest corporate income tax rate in the jurisdiction from which the income is received is at least 15%; and iii) the Singapore Comptroller of Income Tax (“Comptroller”) is satisfied that the tax exemption would be beneficial to the recipient of the foreign income. If the above conditions are not met, tax exemption may still be granted, on application, under certain specified scenarios provided the taxpayer is able to track the source of income and the Comptroller is satisfied that there is no motive of avoidance of Singapore tax by passing local income to an offshore entity.

Income distributions received by individual investors resident in Singapore as a result of their participation in the Fund should therefore be exempt from tax in Singapore unless they are received through a partnership in Singapore, in which case, the dividends may be subject to income tax in Singapore.

Capital gains are not subject to tax in Singapore. However, there are no specific laws or regulations which deal with the characterization of capital gains. As such, the Comptroller may seek to recharacterise gains as income in situations where he regards the gains as arising from a trade or business carried out in Singapore or where the individual’s key purpose in acquiring the shares is to derive a gain from sale (as opposed to acquiring the shares for the key purpose of receiving dividends). The gain would then be chargeable to income tax if it is derived from Singapore, or if it is received or deemed to be received in Singapore from outside Singapore.

Where Singapore resident individual investors do not have the realisation of a profit on the disposal of the shares in the Fund as their key motive in acquiring the shares, gains derived as a result of their participation in the Fund should not be chargeable to tax in Singapore. However, where this is not the case, such gains may be recharacterised as income and subject to income tax in Singapore.

Singapore – Corporate Investors

For tax purposes in Singapore, the Fund will be treated as a company, and not as a fiscally transparent entity.

Companies, whether resident or non-resident in Singapore, are subject to tax on dividends received or deemed to be received in Singapore from non-Singapore resident companies unless they meet the conditions to qualify for an exemption from such Singapore tax. These conditions are; i) the dividend (or the underlying profits out of which the dividend was paid) is subject to income tax under the law of the jurisdiction from which it is received; ii) at the time the income is received in Singapore, the highest corporate income tax rate in the jurisdiction from which the income is received is at least 15%; and iii) the Comptroller is satisfied that the tax exemption would be beneficial to the recipient of

the foreign income. If the above conditions are not met, tax exemption may still be granted, on application, under certain specified scenarios provided the taxpayer is able to track the source of income and the Comptroller is satisfied that there is no motive of avoidance of Singapore tax by passing local income to an offshore entity, and the Singapore taxpayer receiving the foreign income is not a shell company.

Income distributions received by companies resident in Singapore as a result of their participation in the Fund should therefore be chargeable to tax in Singapore, as the conditions above are not likely to be satisfied since the dividends payable by the Fund are not subject to withholding tax in Guernsey and the Fund should be tax exempt in Guernsey.

Capital gains are not subject to tax in Singapore. However, there are no specific laws or regulations which deal with the characterization of capital gains. As such, the Comptroller may seek to recharacterise gains as income in situations where he regards the gains as arising from a trade or business carried out in Singapore or where the company's key purpose in acquiring the shares is to derive a gain from sale (as opposed to acquiring the shares for the key purpose of receiving dividends). The gain would then be chargeable to tax if it is derived from Singapore, or if it is received or deemed to be received in Singapore from outside Singapore.

Where Singapore resident companies do not have the realisation of a profit on the disposal of the shares in the Fund as their key motive in acquiring the shares, gains derived as a result of their participation in the Fund should not be chargeable to tax in Singapore. However, where this is not the case, such gains may be recharacterised as income and subject to tax in Singapore.

Sweden – Individual Investors

For Swedish tax purposes the Fund will be treated as a company, and not as a fiscally transparent entity.

Individuals resident in Sweden are subject to income tax on dividends received from companies which are resident in other jurisdictions. Capital gains realised by individuals resident in Sweden on the disposal of shareholdings in companies resident in other jurisdictions are also chargeable to income tax in Sweden. Consequently, any income or capital gains received by individuals resident in Sweden from their participation in the Fund should be chargeable to income tax in Sweden.

It should be noted that Sweden has Controlled Foreign Company rules which can attribute profits of a foreign company to a Swedish resident shareholder if i) the income of the foreign entity is deemed to be subject to low taxation and ii) the individual, together with connected persons, controls 25% or more of the capital or voting rights in the company.

Switzerland – Individual Investors

For Swiss tax purposes the Fund is likely to be treated as a fiscally transparent entity and should qualify as an accumulation fund.

Individuals resident in Switzerland are generally subject to income tax on their worldwide income whether or not it is received by them. Consequently, the Swiss resident individual investor would, in principle, be chargeable to federal, cantonal and municipal tax on income realised at the level of the Fund. However, based on Swiss internal law, real estate located outside Switzerland is exempt from Swiss taxation. Based on the transparency of the Fund, the Swiss resident individual investor should therefore be exempt from taxation on income derived from real estate located outside Switzerland. However, such income will be taken into consideration in determining the applicable tax rate (progression reservation) on other income.

In addition to income taxation, Swiss resident individual investors are subject to an annual cantonal/municipal wealth tax on their world wide net wealth position; however, real estate property located abroad is exempt. Consequently, due to the transparency of the Fund, to the extent that the net asset value of the shares relates to real estate located outside of Switzerland, the Swiss resident individual investor should be exempt from net wealth tax (progression reservation).

Capital gains realised by individuals resident in Switzerland upon the sale of securities held as private assets, such as shares and investment fund units, are generally exempt from income tax at the federal, cantonal and municipal level. Capital gains realised by Swiss resident individuals upon sale of Swiss real estate property are subject to a cantonal/municipal real estate gains tax. However, capital gains realised by Swiss resident individuals upon sale of real estate located outside of Switzerland are exempt from Swiss taxation. Capital gains realised by the Fund upon sale of real estate located outside of Switzerland should therefore not be taxable at the level of the Swiss resident individual investor.

In Switzerland, securities transfer tax is levied on the transfer of ownership in securities provided a Swiss securities dealer acts as a contracting party or as an intermediary to the transaction. It is the Swiss securities dealer who is liable to the tax. In principle he owes one-half of the tax for each party to the transaction and the tax is usually passed on to the contracting parties. As such, if a Swiss individual investor acquires or sells shares in the Fund and a Swiss securities dealer is involved in the transaction, Swiss securities transfer tax will become due at a rate of 0.3%, of which 0.15% will typically be passed on to the Swiss individual investor.

All references to tax reliefs relate to those applying at the date of the issue of the document.

4. Memorandum of Association

The Memorandum of Association of the Fund provides that the Fund's principal objects are, inter alia, to carry on business as an investment company. Neither the Memorandum nor the Articles of Association contain any restriction on the investment powers of the Fund.

The objects of the Fund are set out in full in Clause 3 of the Memorandum of Association which is available for inspection at the Fund's registered office.

5. Articles of Association

The Articles are available for inspection at the Fund's registered office.

The following section is a summary of certain of the provisions of the Articles:

(a) Variation of Rights and Alteration of Capital

Subject to the provisions of the Companies Law,

- (1) if at any time the share capital is divided into different classes of shares the rights attached to any class may, whether or not the Fund is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class.

- (2) the Fund at any time may, by ordinary resolution, increase the share capital by such sum to be divided into shares of such amount as the resolution shall prescribe.
- (3) the Fund may by special resolution:
 - (i) consolidate and divide all or any of its share capital into shares of a smaller amount than its existing shares;
 - (ii) sub-divide all or any of its shares into shares of a smaller amount than is fixed by the Memorandum of Association;
 - (iii) cancel any shares which at the date of the passing of the resolution have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.
- (4) the Fund may by ordinary resolution reduce its share capital, subject to the provisions of the Companies Law.

(b) Issue of Shares

Subject to any resolution of the Fund in general meeting, the unissued Shares shall be at the disposal of the Directors who may offer, allot, grant options over, or otherwise dispose of them to such persons, on such terms and in such manner as they think fit and the Directors may in their absolute discretion refuse to accept any application for Shares.

(c) Transfer of Shares

Subject to such of the restrictions noted below as may be applicable, any member may transfer all or any of his Shares in any form which the Directors may accept.

The instrument of transfer of a Share must be signed by or on behalf of the transferor, and in the case of a partly-paid share the transferee, and the transferor will be deemed to remain the holder of the Share until the name of the transferee is entered in the register.

The Directors may, in their absolute discretion and without assigning any reasons therefore, refuse to register a transfer of any Share which is not fully paid.

The Directors may also refuse to register any transfer unless:

- (i) the instrument of transfer is lodged with the Fund accompanied by the certificate for the Shares to which it relates (if any) and such other evidence as the Directors may reasonably require to prove the title of the transferor or his right to make the transfer; and
- (ii) the instrument of transfer is in respect of only one class of Share.

If the Directors refuse to register a transfer they must, within two months of the date on which the instrument of transfer was lodged, send notice of the refusal to the transferor and transferee.

In the case of the death of any one of joint holders the survivor or survivors, and in the case of the death of a sole holder the personal representatives, shall be the only person or persons recognised by the Fund as having any title to or interest in the Shares of the deceased holder. The transfer of Shares under this provision shall not release the estate of the deceased holder whether sole or joint from any liability in respect of any Share solely or jointly held by him.

(d) Redemption

Subject to the provisions of the Articles, the Fund shall redeem any number of Shares at the written request of the holder thereof. The redemption of Shares shall be made on the Subscription Day following the receipt of such written request therefore, provided the requisite one month notice (or such other notice period as the Directors may from time to time determine) has been given and neither determination of the redemption price or redemptions themselves have been suspended or subject to the exercise of the discretion to postpone of redemptions, all in accordance with the Articles. Redemption requests may, subject to the Directors' absolute discretion, be withdrawn (either in whole

or in part) by the relevant Shareholders. Where suspension is declared, redemption will take place on the next Subscription Day following the end of suspension. On the fifth day following the Subscription Day, the redeeming Shareholder shall be sent a contract note stating the amounts payable on the redemption and any such amount shall be posted to the redeeming shareholder not less than 5 days after the Subscription Day.

(e) Compulsory Redemption

If it shall come to the notice of the Directors that any Share is owned directly or beneficially by any person; (1) so as to require the Fund to have to comply with any law or regulation of any country or governmental authority which in the judgment of the Directors (whose judgment shall be final and binding) would be unduly burdensome on the Fund; (2) so as to cause the Fund to be in breach of any law or regulation of any country or governmental authority; or (3) so as to constitute a fiscal or tax disadvantage to the Fund the Directors may serve a notice on such person requiring him within 30 days to transfer the relevant Shares to a person who is, to the satisfaction of the Directors, qualified, entitled and permitted to hold the Shares. If within 30 days of the giving of the notice the notice has not been complied with the Fund may compulsorily redeem the relevant Shares.

(f) Portfolios

- (1) The Directors may establish a Portfolio for each class of Shares and each Portfolio shall be designated by reference to a class of Shares.
- (2) The proceeds from the issue of each class of Shares shall be applied in the books of the Fund to the Portfolio established for that class of Shares. The Fund and the directors are not in any manner responsible for ensuring compliance by purchasers with any resale restrictions. Purchasers of the Shares are advised to seek legal advice prior to any resale of the Shares.

Contractual and/or statutory rights of action

Securities legislation in certain of the Canadian jurisdictions requires purchasers to be provided with a remedy for rescission or damages, or both, in addition to and not in derogation from any other right they may have at law, where an offering memorandum (including the Prospectus) and any amendment to it contains a misrepresentation. These remedies must be exercised by the purchaser within the time limits prescribed by the applicable securities legislation. Purchasers should refer to the applicable provisions of the securities legislation for the complete text of these rights or consult with a legal adviser.

The applicable contractual and/or statutory rights are summarized below. The summary is subject to the express provisions of the applicable provincial securities laws and the regulations and rules thereunder and reference is made thereto for the complete text of such provisions.

The right of action for damages or any other action other than the right of action for rescission will be exercisable by a purchaser only if the purchaser gives notice to the Fund not later than the earlier of (i) 180 days after the purchaser had knowledge of the facts giving rise to the cause of action or (ii) three years after the date of the transaction that gave rise to the cause of action;

The Fund will not be liable if it proves that the purchaser purchased the interests with knowledge of the misrepresentation;

In the case of an action for damages, the Fund will not be liable for all or any portion of the damages that it proves does not represent the depreciation in value of the Shares as a result of the misrepresentation relied upon; and

In no case will the amount recoverable in any action exceed the price at which the Shares were sold to the purchaser.

The contractual and/or statutory rights discussed above are in addition to and without derogation from any other right the purchaser may have at law and are subject to certain statutory defences.

Designation of Ontario dealer (Ontario only)

Unless the Fund has engaged an Ontario-registered dealer to place Shares of the Fund in Ontario, each purchaser of Shares in Ontario will be required to designate an Ontario-registered dealer to complete the purchase of the Shares on its behalf. The staff of the Ontario securities commission take the position that a person that provides investment advice to a fund that distributes its shares in Ontario is considered to be acting as an adviser in Ontario, and is subject to the requirement to register as an adviser, notwithstanding that the advice may be given to and received by the Fund outside of Ontario. The Fund is not registered in Ontario. However, the Fund may rely upon an exemption from the adviser registration requirement if the Shares are distributed through an Ontario-registered dealer. Accordingly, unless the Fund has engaged an Ontario-registered dealer to place the Shares in Ontario, no sale will be made to a purchaser resident in Ontario unless the designation form contained in the subscription agreement has been completed and delivered to the Fund.

Certain Canadian income tax considerations

Prospective purchasers of the Shares should consult their own tax advisers with respect to any taxes eligible in connection with the acquisition, holding or disposition of these interests. It is recommended that tax advisers be employed in Canada, as there are a number of substantive Canadian tax compliance requirements for Canadian investors.
